

Grapevines 2012

Planting a Vineyard:

If you are new to the UK wine industry, or expanding or replanting an existing vineyard, it is worth spending plenty of time on planning and preparation.

Our Managing Director, Simon Day can advise on the steps you need to take to ensure a problem free establishment of your vineyard. With many years of experience from some of the smallest to the very largest vineyards in the UK and abroad, this specialist advice can save you money by avoiding costly mistakes, and help get your vineyard fully established and producing in the minimum time span.

From site selection / appraisal, business planning, winery design and wine making, Simon can offer step by step advice from vine to wine and beyond.

Please get in touch for more information and consultancy rates.

Choosing varieties:

There are so many variables to consider when short-listing or choosing your varieties. The obvious starting point is the style of wine you wish to produce. The UK is now capable of producing virtually all of the mainstream wine styles from full bodied red wines, rosé, dry aromatic, or sweet dessert whites, and increasingly, very high quality sparkling wines.

You will need to consider your site. The aspect, height above sea level, slope, shelter, soil, local flora and fauna may have a bearing on the suitability of certain varieties, and how well they will ripen.

Yield may also affect choice. If you are limited in area, you may wish to only plant higher yielding varieties.

Disease resistance may play a part, especially if you are considering organic or low input viticulture.

EC Wine Legislation should also be considered. Some varieties may not be applicable in the UK Quality / Regional Wine scheme and can only be sold as UK Table Wine without vintage, vineyard name or variety named on the label.

Please get in touch if you need further advice on choosing varieties.

About our vines:

Vine & Wine works closely with a large specialist grapevine nursery in Germany to deliver the best quality grafted vines, certified virus free & complete with EC plant passport. The vines are 1 year old stocks, pruned and with the graft union re-waxed prior to despatch. They are held in cold storage to keep dormancy until despatch from our premises. We normally despatch the vines mid April.

Rootstocks:

Rootstock choice may be limited, unless ordering over 1 year in advance. We will endeavour to deliver the variety on the stock of your choice, but occasionally these may have to be substituted with another suitable rootstock. Common rootstocks are SO4, 125AA, 5BB, Borner, Binova and 3309 Courdec. Please ask for availability / suitability for your soil type.

Clones:

Some varieties may be available in a range of different clones, selected for particular characteristics. If you would like to order specific clones, please contact us for more details and availability.

Vine Price list For Delivery April/May 2012

Price Ex – Vine & Wine premises, delivery at cost (see below).
Minimum order of 25 Vines of the same variety.

Total Quantity Ordered			Delivery Charges (Overnight Courier)
	VINIFERA	INTERSPECIFIC CROSS (HYBRID)	
Less than 50	£2.85	£3.05	£16.00
50 - 100	£2.45	£2.63	£20.00
125 - 250	£2.07	£2.31	£25.00
275 - 500	£1.85	£2.06	£30.00
525 – 1000	£1.71	£1.91	£45.00
1025 – 5000	£1.61	£1.81	P.O.A.
5000 +	£1.58	£1.78	P.O.A.

High Graft Vines:

If you are planting replacement vines in an existing vineyard, high graft vines may ensure the vines establish alongside the existing competition. Please ask for a quote. There is little evidence that high graft vines are any quicker to establish in a new vineyard, and do cost considerably more.

Delivery:

Small orders (up to 50 vines) will be dispatched via first class recorded post with Royal Mail. Larger orders (50+ vines) will be delivered by Overnight couriers. Palletised orders will be delivered by Palletline overnight service. Collection of orders (by prior arrangement only) welcomed.

Ordering & Delivery:

Please order as soon as possible, as popular varieties can be in short supply!

1. Orders may be placed by phone, fax, email, or post.
2. Once we have confirmed availability, we will send an invoice for the full amount. You are required to pay a 50% deposit to confirm the order. The balance is due by the **end of March 2012** prior to despatch from the nursery.
3. Delivery will be by overnight courier at the rates listed, unless other specific arrangements have been made (e.g. collection).
4. Please contact us if you require specific delivery dates, otherwise we will inform you up to 24 hours prior to despatch of the delivery date.
5. Please ensure we have your correct delivery address and additional instructions with your order if different from the invoice address.
6. You must notify us as soon as possible if delivery has not taken place on the specified date.
